Eduvos Career Fair

The Eduvos Career Fair will help you connect with companies and organisations and to prepare for the world of work. You will be able to visit different exhibitions and attend presentations to find out more about career opportunities at the various companies and organisations.

Employability Centre's on campus

Welcome to the *Employability Center.*

PLAN • PREPARE • PRACTICE • PERFORM

Access resources such as guidelines, videos, posters linked to the work readiness & career services programme, additional topics relating to employability, book a consultations for career guidance.

I would recommend Eduvos as employers employ students from Eduvos.

Dewald Henn

Eduvos Higher Certificate in Information Systems, Software Development Graduate

eduvos.com

The Bachelor of Science in Information Technology was sufficient in allowing me to pursue my dream of becoming a Software Engineer as well as apply business concepts to solve real world problems.

Dylan Smyth

Eduvos BSc in Information Technology Graduate

eduvos.com

I chose to study at Eduvos because of the excellent Graphic Design program.

Eduvos taught me valuable skills in the industry and the discipline to keep on learning new skills by myself.

Yenge Voster

Eduvos BA Graphic Design Graduate

I prefer a private university; it is easy to get access to our lecturers and they are more open to advising and guiding us individually.

Caylen Williams

Eduvos BCom Law Graduate

eduvos.com

During my time at Eduvos, I was able to acquire a variety of skills and knowledge through the educational services offered. As lecturers shared their knowledge and experiences, I gained a better understanding of the world in which I now find myself working.

Donica Venter

Eduvos Bachelor of Commerce Graduate

eduvos.com

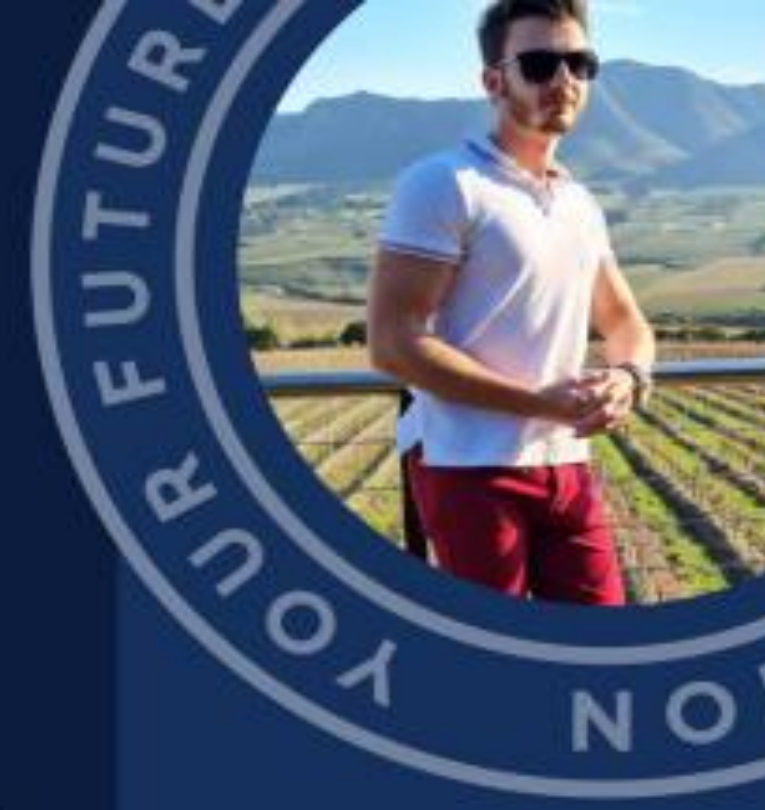

The Bsc IT course was Business focused and no other Institutions was so business focused. Due to studying IT I have a firm grasp of concepts used in the IT space to test software and hardware as well as the skills to work with any coding that I might have to do to fix/find an issue and then how to deal with them appropriately.
