Students with Special Support Needs

WHAT IS A SPECIAL NEED?

“Students with special needs” have a **long-term** physical or psychological or intellectual or sensory impairment, which may hinder their full and effective participation on an equal basis in their course.

Examples:

Visual- or Hearing-impaired student.

A student with a chronic/life-threatening physical disease.

Student with ADHD, Autistic spectrum disorder, or learning disabilities.

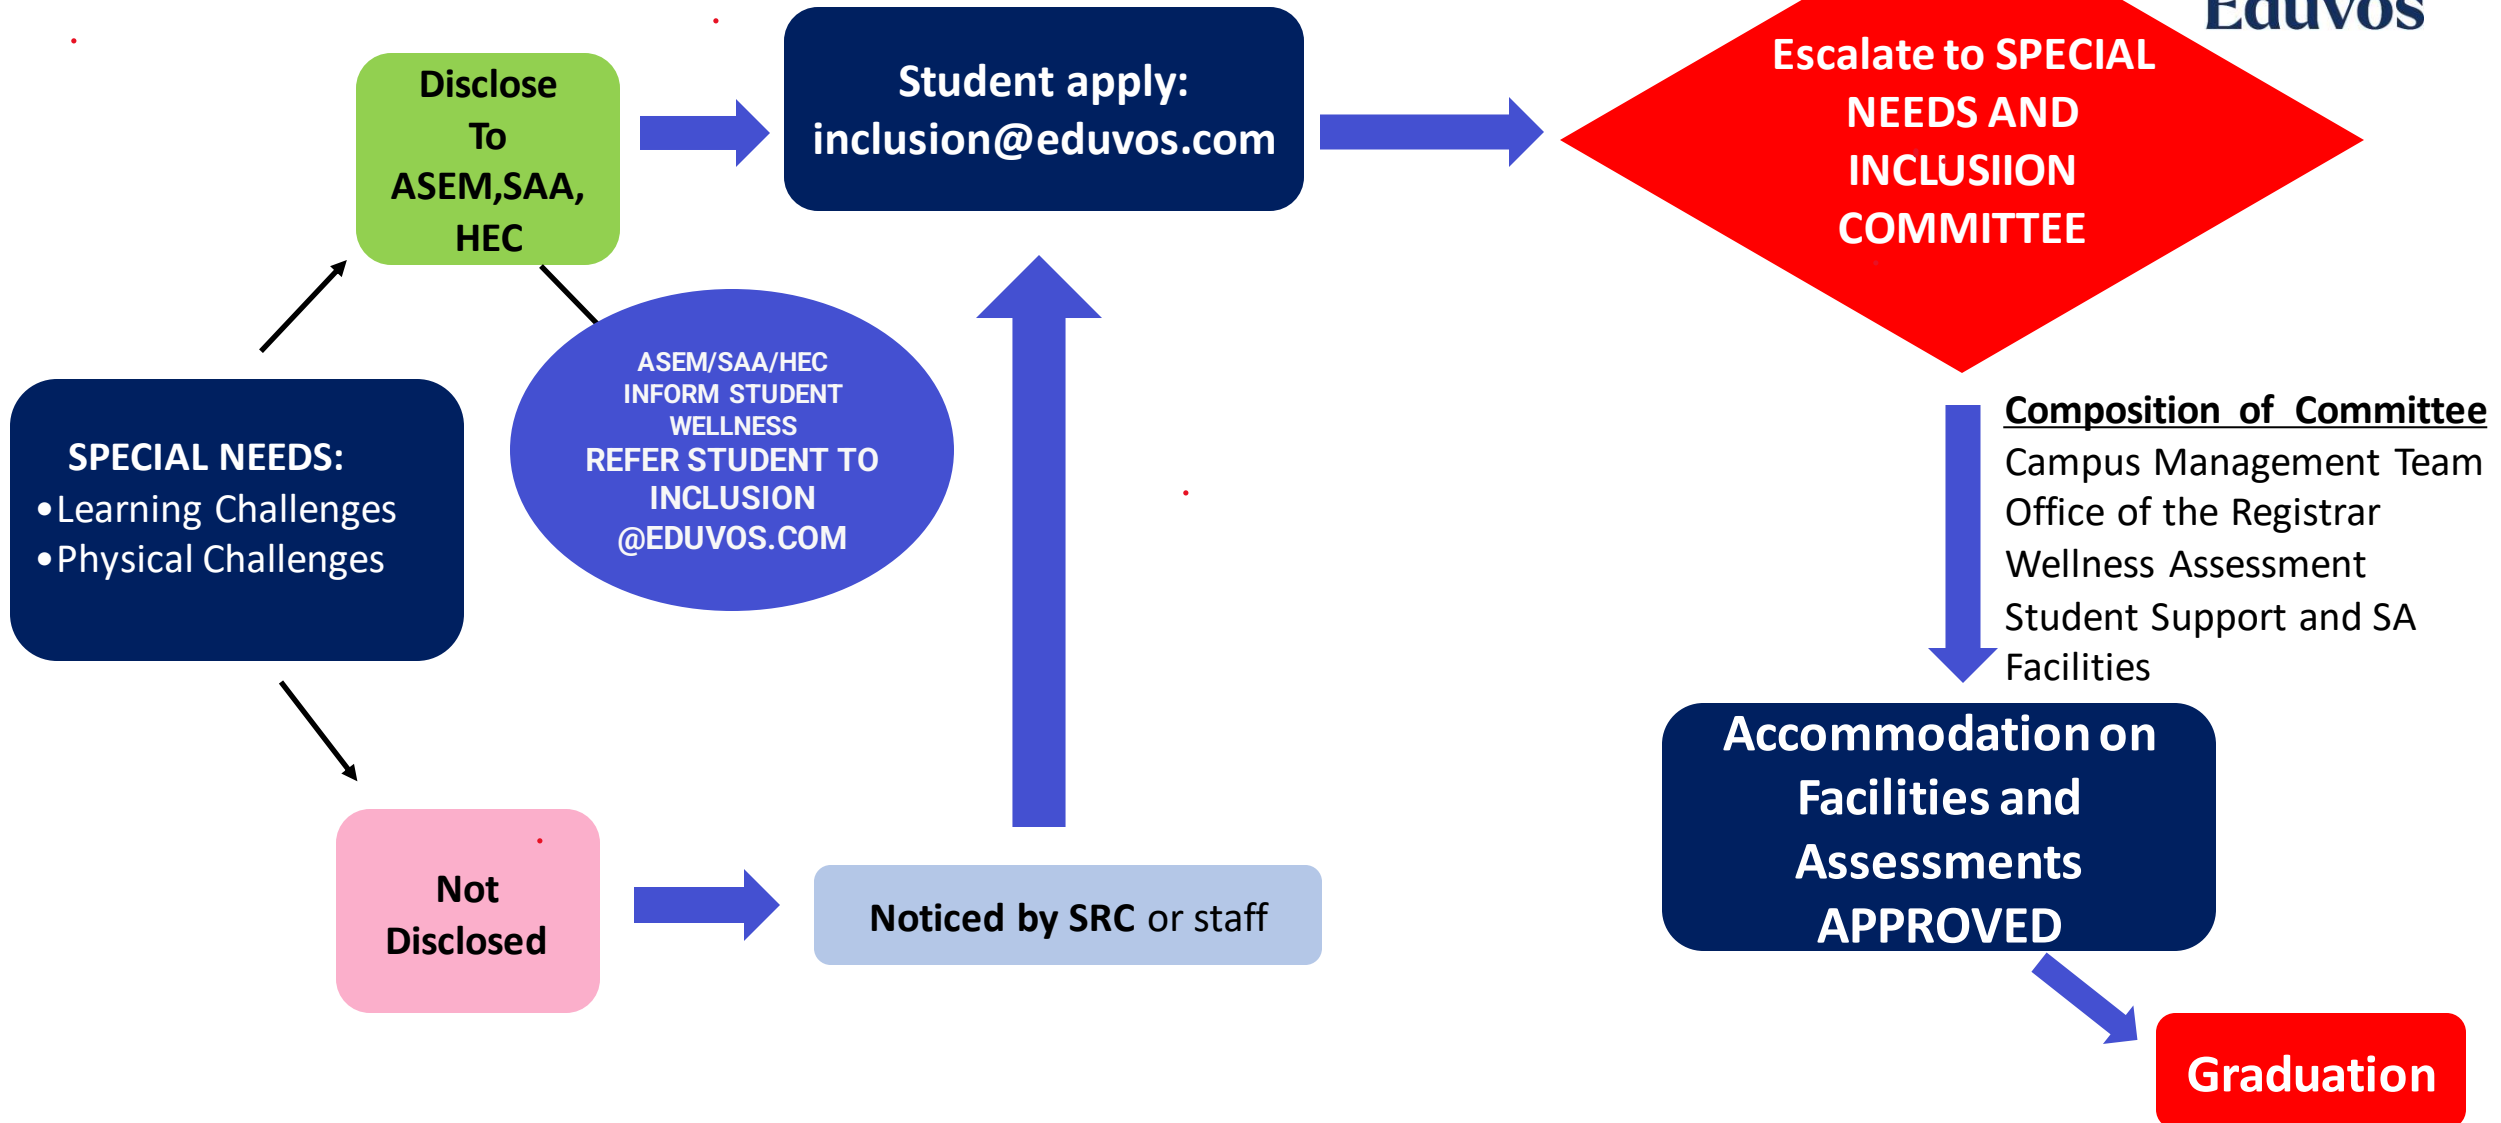

“Reasonable accommodation” means any modification or adjustment to the CAMPUS environment that will enable a student with a disability to have access to or to participate or advance in academia. These measures ensure that students with special needs enjoy equal opportunities. *A student must share all the necessary information for accommodation via email,*
