About Us.

Eduvos, voted best private higher education provider in South Africa, offers quality, affordable tertiary education across 12 campuses. We offer over 20 accredited qualifications, which are internationally recognised, across four faculties: Applied Science, Commerce and Law, Humanities and Information Technology.

Eduvos prides itself on its future-proof qualifications, providing the necessary skills for graduates to be successful in their chosen careers. We set ourselves apart from our competitors with our "Campus of the Future" model, where our students, who are known as Vossies, are placed at the centre of our learning model. Our qualifications are offered in a variety of flexible learning modes, so that no matter where a student is in their learning journey, they will find success at Eduvos.

“

Eduvos is

and was my best decision. All degrees are internationally recognised, and the modules are up-to-date and filled with industry-relevant content.

- Louis Oosthuizen

Bachelor of Science in Information Technology, Software Engineering Graduate

eduvos.com

A WELCOME From Our CEO.

At Eduvos, we believe that every student is unique. It is our responsibility to provide all our students with the best possible knowledge, skills, and grounding to flourish in their communities, and in the dynamic world of work.

Voted the best Private Higher Education Provider in South Africa, by PMR Africa, it is our mission to shape potential – student by student – towards Africa’s prosperity.

We appreciate that delivering a future-proof tertiary education experience means that the role of an educator has evolved, and that students require a holistic learning experience that includes practical links into industry; wellness and psycho-social guidance and support; dynamic learning – including meta-learning; and qualifications that are relevant to pave the way for employability and future career prospects.

We pride ourselves on our campuses of the future, expert academic staff, relevant and current academic content and on the variety of qualifications that we offer. These are fully accredited and internationally

recognised and unlock a world of opportunity for our students both locally and abroad.

At Eduvos we place our students at the centre of their learning experience. Our blended learning model empowers students to create a study schedule that works for them. Through our flexible learning strategy, students get the best of both worlds through face-to-face engagement, online activities, and self-study. Our lecturers, who have both industry and academic backgrounds, also provide one-on-one support, ensuring that students receive all the necessary tools to succeed.

Student employability is a priority. Our industry connections, practical real-work immersions, employability workshops and career fairs are just some opportunities we provide for our students to set a pathway for success.

Providing access to quality, affordable higher education is vital to our mission. Our fees are structured with achievable payment plans, and we are proud to work with some of the best student funding partners

who can assist parents and students with financing their studies. Our non-profit partner, Vela Trust, also brings fruitful bursary opportunities to our students – throughout a student’s tenure at Eduvos.

We believe that providing a quality higher education, with future-fit skills, and the tools necessary to make a positive impact in your community and at your future employer is the best recipe for the success of our Eduvos graduates.

We hope that you will make Eduvos your first choice in Higher Education, and we look forward to partnering with you on your learning journey.

Siegie Brownlee, CEO

A BRIEF History of Eduvos.

Our institution has a rich history in Higher Education that spans over 45 years.

<p>1979</p> <p>Started in 1979, CTI Education Group and the then Midrand Graduate Institute (MGI) were combined into a new institution called Pearson Institute of Higher Education (PIHE). The aim was to establish a growing and credible institution with high quality and a wide footprint in private education in South Africa.</p>	<p>2011</p>	<p>2021</p> <p>In February 2021 PIHE was bought over by a consortium comprising EXEO Capital and Stellenbosch Graduate Institute, and the organisation was renamed and registered as Eduvos, with the purpose of shaping potential – student by student – towards Africa’s prosperity.</p>
---	--------------------	---

EDUVOS Purpose, Vision and Values.

At Eduvos we are driven by our mission of shaping potential – student by student – towards Africa’s prosperity.

Our values act as a guide to how we operate. We believe that by living our values we will meet our vision of becoming a thriving African meta-university that combines scale, quality, culture and impact.

Eduvos values:

<p>We show up with</p>  <p>HUMANNESS</p>	<p>We contribute by driving</p>  <p>RELEVANCE</p>	<p>We learn and grow by taking</p>  <p>ACCOUNTABILITY</p>	<p>We think and act with</p>  <p>ENTREPRENEURIAL SPIRIT</p>
--	---	---	---

ACCREDITATION AND Quality Assurance.

As a degree-conferring institution, we are proud to offer qualifications that are accredited, registered and quality-assured according to regulatory requirements set out by the Department of Higher Education and Training (DHET).

Eduvos is a registered private higher education institution with the DHET under the Higher Education Act No. 101 of 1997 with registration certificate number: 2001/HE07/008. Our qualifications are accredited by the Higher Education Quality Committee (HEQC) of the Council on Higher Education (CHE) which assures that qualifications are quality assured and peer reviewed. Eduvos qualifications are recorded on the National Qualification Framework (NQF) by the South African Qualifications Authority (SAQA).

Eduvos has been awarded PMR.africa's Diamond Arrow Award as the highest-rated private higher education provider in South Africa.

The PMR.africa Awards acknowledge organisations across all industries for their excellence. Winners are recognised for their competitiveness, effectiveness, leadership and resilience. The awards acknowledge the hard work of an institution and set a benchmark for others to aspire to.

pmr.africa | Diamond Arrow Award

Our Commerce Faculty is endorsed by:

- Association of Chartered Certified Accountants (ACCA) (Eduvos is an approved Learning Provider)
- Chartered Institute of Management Accountants (CIMA)
- Cape Town Tourism (CTT)
- The Institute of Accountants and Bookkeepers (IAB)
- The Marketing Association of South Africa (MASA)
- South African Institute of Chartered Accountants - Associate General Accountant (SAICA AGA (SA))
- South African Board for People Practices (SABPP)

Where applicable, students can also earn micro-credentials including SAGE Payroll and Pastel; Airfares and Ticketing (Certificate in Domestic Fares and Ticketing) and Global Distribution Systems (Certified Galileo Reservations).

Golden Key.

Golden Key International Honour Society is the world's largest collegiate honour society for graduate and undergraduate students and has strong relationships with over 400 universities around the world such as Wits, Stellenbosch University and the University of Pretoria to name a few.

Golden Key is built on the pillars of academics, leadership, and service, and our chapters are committed to implementing service projects and leadership development for all students at their institution. Members qualify when they are in the top 15% of their class and are given access to a wide range of rewards, scholarships, travel and study abroad opportunities. Eduvos is the first independent private higher education institution in South Africa to be awarded this prestigious membership. Golden Key is by invitation only and the affiliation of Eduvos with Golden Key will open doors to limitless possibilities for our students.

Eduvos is the biggest

platform through which unemployment can be addressed. The results of PMR.africa's survey on providers of Higher Education clearly indicate that Eduvos is preparing students and graduates to address the bigger challenges being faced in the workplace and society at large. A well-rounded student and graduate is required to ensure a responsible and sustainable future, and Eduvos is the leader in preparing its students accordingly.

- Johan Hattingh
CEO of PMR.africa

Our Information Technology Faculty is a member of or endorsed by:

- The Institute of Information Technology Professional South Africa (IITPSA)
- Institute of Chartered Information Technology Professionals (ICITP)
- South African Artificial Intelligence Association (SAAIA)

Furthermore, the Faculty of Information Technology is in partnership with:

- The Computing Technology Industry Association (CompTIA)
- Amazon Web Services (AWS) Academy
- SAS Institute
- Integrated Electronics (INTEL) Corporation

Where applicable, students can also earn industry certifications including AWS Academy; CompTIA; Microsoft Azure Artificial Intelligence (AI) Engineer; SAS Institute, and INTEL Corporation.

Esports continuously

sharpens my problem-solving skills. I've found that in both gaming and my studies, I don't easily give up until I grasp a concept or topic. This tenacity is extremely valuable in the world of computer science where pushing yourself to the limits is often required.

- Robert Njawaya
Bachelor of Science
in Computer Science Student

MAKE EDUVOS

Your First Choice.

Committed to Academic Integrity.

Our faculties are made up of exceptional academics, including more than 40 PhD holders. Our accomplished team of staff and lecturers possesses a rich blend of academic and industry expertise and knows what it takes to succeed. With Eduvos, students receive the perfect blend of theoretical and practical knowledge from dedicated experts who are deeply invested in academic success.

Eduvos Esports.

Eduvos has 12 campus leagues nationwide. Any student can join their campus league and stand the chance to compete in inter-campus tournaments, represent Eduvos at events such as Comic Con, and gain valuable skills that benefit their studies such as problem-solving, strategising and working in a cohesive unit.

We also have two gaming qualifications namely a Higher Certificate in Information Systems (Game Design & Development), and a Higher Certificate in Computing (GameCraft & Development).

Accredited Qualifications, Internationally Recognised.

Eduvos offers over 20 accredited qualifications, across four future-facing faculties: Applied Science, Commerce and Law, Humanities and Information Technology. Our diverse range of qualifications includes undergraduate bachelor's degrees and higher certificates, honours degrees and online short courses.

Future-Proof Skills.

We cultivate the kind of future-proof skills that impress employers. That's why we're driven by a mix of learner needs, industry trends and workplace demands. Critical thinking, goal setting, creative problem solving, teamwork and communication are just some of the 21st-century skills you'll build during your time at Eduvos – the skills employers actively seek.

Microsoft 365 Access.

All Eduvos students receive a Microsoft Office 365 account, which means your own vossie.net email address and the complete office suite (Outlook, Word, Excel, PowerPoint). Students also receive academic support with myLMS, our custom Learning Management System.

Clubs and Societies.

No matter your interests, Eduvos has a society and club for you. We believe that student experience is a very important part of your higher education experience. Join local clubs such as esports, BioCom, netball, soccer, choir, debate club, and more. We also encourage our students to pursue joining the SRC (Student Representative Council) and other student committees. Students can join the Eduvos Peer Mentoring Programme and/or become a Mental Health Ambassador.

Next Generation of Learning.

Eduvos has partnered with EON Reality, Inc. (EON Reality), a global leader in Virtual Reality (VR) and Augmented Reality (AR). We are leveraging Extended Reality (XR) technology to deliver academic content in new and interesting ways for our students. The new-age technology transforms the learning experience, and by exposing our students to next-generation technology, like EON-XR, skills are developed that increase their employability in an ever-changing job market.

State-of-the-Art Facilities.

We've created campus experiences that provide for the modern world of work with ample equipment and facilities to support learning and socialisation. Step into the digital world and access unlimited online tools. From fully equipped IT and Graphic Design labs to lecture venues, resource centres and more, found on each campus. Our biomedicine laboratory on our Midrand campus has state-of-the-art laboratories where students can master and apply sought-after workplace skills.

Pre-Enrol. Only at Eduvos.

As the only institution offering the opportunity to pre-enrol, we're giving you a chance to secure your seat and shape your future at the best private higher education provider in South Africa. You don't have to wait for your final results in January, you can pre-enrol with your latest academic results and finalise your enrolment when you receive your school-leaving certificate.

Funding and Bursaries.

Eduvos aspires to make quality, private higher education affordable and accessible to all. We have several funding partners available to assist students with financing their studies and a range of external bursaries available through our partner, Vela Trust.

EXPLORE OUR
12 Campuses
Across South Africa.

We're changing our communities by making high-quality education accessible to all with our 12 cutting-edge campuses across the country. With over 11,500 students representing more than 50 nationalities, each of our multicultural campuses is a gateway to global connectivity.

SCAN ME
and take a virtual tour
of our campuses.

We've created an environment where students can feel safe and thrive.

- State-of-the-art facilities
- Smaller classes
- Fully equipped IT, Design and Science* labs
- Resource centres
- Sporting facilities*
- Employability centres and so much more.

Generally located near major transport links, restaurants, shops, libraries, and hotspots, our campuses are at the heart of vibrant neighbourhoods. Several campuses offer transport with a variety of pick-up and drop-off points so that students can arrive at campus safely and on time to start their day of learning.

*Not all campuses offer the same facilities.

FUNDING Opportunities.

We have several funding partners who can assist students with financing their studies.

Capitec Education Finance in association with SmartFunder. You could get up to R500 000 at a discounted fixed interest rate and up to 84 months to pay.

The ABSA study loan offers you the opportunity to borrow funds at a low-interest rate to support yourself or someone you would like to benefit from study funding.

MANATI Alternate Student Funding's vision is to catapult prospective students with high potential into ultra-employable members of the workforce.

Fundi is South Africa's leading Education Finance specialist. Fundi believes that the more you know, the more you can become. Fundi enables you to pursue your dreams.

Student Hero is a free-of-charge consulting service for funding tertiary education where you can learn about, apply, and qualify from a single platform.

SCAN ME for more info.

STUDENT Accommodation.

Eduvos has partnered with Respublica Student Living, one of South Africa's leading student accommodation providers. For students looking for accommodation near our Midrand campus, Respublica's Princeton Village provides safe, secure and accessible student accommodation right next door to the campus. (respublica.co.za)

In addition, DigsConnect (digsconnect.com) provides housing options to our students in locations around South Africa, in close proximity to an Eduvos campus.

All our campuses can recommend safe, secure, comfortable and accessible accommodation. For more information on the accommodation and residence facilities near our individual campuses, get in touch with a campus near you – refer to page 35 for campus contact details or visit our website/scan the QR code.

EXTERNAL Bursaries.

Vela Trust is a non-profit trust that supports education programmes, incubated by Eduvos.

Vela provides external bursaries for Eduvos students for programmes in Technology, Applied Science, Law, Business and Humanities, covering many of the critical skills needed by the South African economy.

Visit velatrust.org for more information.

YOUR EMPLOYMENT.

Our Priority.

We understand that Eduvos is only the first step in our student's professional path. Our employability and work readiness programmes thrive to connect our graduates with scholarships, internships and permanent job placement opportunities, for them to excel in their dream careers.

Our academic staff ensure that our students are equipped with the relevant knowledge and skills to enter the working world with confidence. At Eduvos we build your 21st century skills, which include, but are not limited to: critical thinking, goal setting, creative problem solving, teamwork and communication — the skills employers actively seek.

OUR EMPLOYABILITY INITIATIVES INCLUDE:

- Work-readiness workshops
- Career Fairs
- Hack Jams
- Student Showcases
- Industry Breakfasts
- Virtual employability centre
- Support with job and recruitment opportunities
- CV building and interview skills
- Alumni Society

Eduvos equipped me with the tools and skills I needed to get employed so soon after completing my undergraduate degree.

- Lofuno Kgotlagomang
Bachelor of Science in Information Technology Graduate

WORK INTEGRATED

Learning.

Eduvos students studying qualifications that have a Work Integrated Learning (WIL) Programme as part of the curriculum are required to participate during their final year of study. Students engage in practical assignments where they can apply decision-making, problem-solving and knowledge integration skills.

The programme is beneficial to industry partners, hosting companies and our students. Affording different companies, the opportunity for soon-to-be graduates to render their services to the company, assist with operational challenges, and provide new innovative thinking and ideas. Students gain practical industry experience and exposure to start networking proactively for future employability. Many of our students are offered full-time employment or work opportunities by the host company, post-graduation.

EDUVOS

Career Fairs.

Our Eduvos Career Fairs serve as invaluable exposure for our students to interact, network, and explore career opportunities with industry leaders.

The Career Fairs feature experts from various companies in different fields, who will share their personal experiences, expertise, and knowledge about potential career paths. This interactive platform allows students to gain a deeper understanding of what various professions entail and what it takes to succeed in them.

With our goal of providing valuable insights and resources to learners, we recognise that these opportunities are only the first steps in our students' career journeys. We want to equip our prospective and current students as well as graduates with the information they need to make informed decisions about their future studies.

During the Career Fairs, our esteemed industry partners will have the privilege of selecting top talent from the Eduvos pool, thus assisting the industry in filling crucial positions with the ideal candidates.

The alumni society

serves as a bridge between alumni and current students and offers a chance to build strong relationships with your peers long after graduation. Shared knowledge and experiences give alumni the power to create more opportunities and give back to the youth in their community

- Marna Wessels
National Employability Lead at Eduvos

EDUVOS

Alumni Society.

Studying with Eduvos means that you will always be part of our community so that even after graduation, you can stay connected with us.

The Eduvos Alumni Society is a group dedicated to graduates associated with Eduvos, supporting engagements between alumni, current Vossies and Eduvos staff. A platform for alumni to build on their professional network, be the first to find out about employment opportunities and maintain close relations with their Eduvos Alma Maters.

Graduates can sign up at any time by reaching out to the Career Services office at alumni@eduvos.com

STUDENT AFFAIRS AND Student Support.

At Eduvos, we have a comprehensive Student Affairs and Student Support department dedicated to enhancing the overall student experience and promoting their personal, academic, and social development.

This department offers a wide range of initiatives, programmes, and services that aim to support students throughout their educational journey, from the moment of enrolment through to graduation. We have an Academic Support and Academic Advising Programme that focuses on providing initiatives to contribute to students' academic achievement and overall success in their studies.

In addition to academic support, we also prioritise student wellness and provide comprehensive support to address students' physical, emotional, and mental well-being. Our department offers counselling services, health programmes, and wellness activities to ensure students have access to the necessary resources for their well-being.

Creating an inclusive, diverse, and respectful campus culture is of utmost importance to us. We strive to promote an environment in which individuals feel valued and respected. Student engagement is a key element in achieving this goal. We encourage active participation in extracurricular activities, clubs, organisations, and campus events to help students build social connections and develop leadership skills.

Furthermore, we continuously build partnerships and affiliations with external student affairs practitioners through our community projects. This allows us to expand our network and bring in new perspectives and ideas to further enhance the student experience.

To ensure that student voices are heard and represented within our governance structures, we have both a Student Representative Council and Class Representatives. These official bodies ensure that students have an official voice and that their perspectives and concerns are considered in decision-making processes.

SPECIAL NEEDS AND Disability Concessions.

Eduvos strives to create the best and most inclusive learning environment for each of our students. This includes allowing for concessions for those who may have learning impediments and/or disabilities.

It's crucial for students to engage with the inclusivity office (inclusion@eduvos.com), provide appropriate documentation, and communicate their specific needs. This process ensures that Eduvos can make the necessary adjustments, allowing students to fully participate in their learning journey and demonstrate their knowledge and abilities on a level playing field.

MODES OF Learning.

At Eduvos, we've adopted a smart blended learning approach, where asynchronous learning (learning that occurs at your own time and place) and synchronous learning (learning that occurs simultaneously, albeit online or on campus) are available. Our smart blended learning approach uses elements of the 'flipped classroom' methodology, which requires students to engage in pre-class learning, and allows more time during in-class engagement for active learning, discussions, problem solving, and collaborative activities, in addition to lecturing. By actively engaging with the material and their peers, students can deepen their understanding of the content. The smart blended learning is enhanced with technology, such as augmented reality (AR) and virtual reality (VR) via EON-XR. The practical application of knowledge in real-world scenarios, elevates students to solve problems, innovate and build essential skills for the world of work.

A huge benefit to me

was that my education was never disrupted, and my education was always the priority. I found the flipped classroom and blended learning to be really great, I got to experience both worlds and allowed me to learn in different ways.

- Itumeleng Morei
Bachelor of Science in
Information Technology, Data
Science Graduate

OUR MODES OF LEARNING INCLUDE:

Campus

Students attend synchronous contact lectures (alternating physical and live online lectures) during the day predominantly from Monday to Friday at an Eduvos campus. Each qualification has its own timetable. Students are in constant contact with their lecturers, which allows for in-class discussions and group learning. Qualifications at campus can be studied both full-time and part-time (selected qualifications).

Online

Similar to our campus-based qualifications, students attend synchronous (live) lectures and have the opportunity to engage with their lecturers and fellow classmates during in-class discussions and group learning. With our online offerings, all lectures are offered virtually and after hours (evenings and Saturdays). Students leverage our online myLMS (Learning Management System) to access learning materials. These qualifications can be studied both full-time and part-time.

Distance

Through our distance methodology, students do not attend synchronous lectures in accordance with a fixed timetable but have the opportunity to engage with lecturers for support in synchronous sessions. Students engage with their lecturers and classmates through discussion forums on myLMS and have access to asynchronous, recorded lectures via myLMS.

We currently offer distance learning, part-time and full-time, for a Higher Certificate in Business Management, BCom, BCom Law or BCom Accounting.

OUR DURATIONS INCLUDE:

Full-Time

As a full-time student, you will be expected to spend most of your time focused on your studies, as your workload will typically comprise of at least 120 credits per academic year. This will allow you to complete your higher certificate or honours degree in 1 year, and bachelor's degree in 3 years.

Part-Time

As a part-time student, you will carry a lighter workload, which will typically comprise of less than 120 credits per academic year, which will accordingly extend your study duration. This will allow you to complete your higher certificate in 2 years, and bachelor's degree in up to 5 years.

ACADEMIC CALENDAR

Four Academic Blocks

Our academic year and course content are structured into four academic blocks, rather than a traditional semester, or two-block model. This allows students to focus on fewer modules at a time and complete a module before commencing with the next block, thereby allowing for improved academic performance.

Accordingly, students can also start with our qualifications in any of our Block 1, Block 2, Block 3 and Block 4 intakes.

UpNXT Mode

This modular, sequential mode of delivery (SMD), is a self-directed learning approach where modules are offered in a consecutive format, allowing students to focus on one module at a time. This self-directed approach, along with our lecturers providing structured, timetabled academic support and guidance creates a recipe for success.

Our sequential approach to learning is best suited to students who wish to study a Higher Certificate in Information Systems qualification. It provides students the flexibility to join any of the 12 intakes for IT Software streams and 9 intakes for IT Hardware streams throughout the year.

FACULTIES AND Programmes.

Refer to pages 30-33 for admission requirements for each faculty.

ACCESS AND PRE-DEGREE Foundation Programmes.

Bridge the gap between school and higher education in a highly supportive environment with either our Access or Pre-degree Foundation Programme. On successful completion of a pre-degree programme, students will gain entry to an Eduvos degree.

- Bachelor of Science Access Programme (Science)
- Bachelor of Science Access Programme (Information Technology)
- Pre-degree Foundation Programme (Commerce and Law)
- Pre-degree Foundation Programme (Graphic Design)
- Pre-degree Foundation Programme (Science)
- Pre-degree Foundation Programme (Information Technology)
- Pre-degree Foundation Programme (Social Sciences)

Evidence has shown

that over the years, students who have passed through our pre-degree programme have an advantage in their first year of studies, having adjusted to higher education expectations. We find that our students can identify what best works for them and work on how to study better, showing incredible progress, often finishing top of their class and completing their qualifications in record time.

- Lavender Nyakudya
Communications Programme Manager,
Eduvos Humanities Faculty

FACULTY OF Applied Science.

Are you ready to harness the power of math, science, and cutting-edge research to shape the future? Revolutionise the biotech and healthcare industries with scientific discovery and innovation in the Faculty of Applied Science.

- 7 weeks**
- Leadership and Emotional Intelligence
 - Managing Teams
 - Managing Finances
 - Managing Operations
 - Managing Knowledge and Innovation
 - Managing Talent and the Workforce

These modules fall under our General Management Certificate and are available as individual short courses.

- General Management Certificate | 1-2 years
- Advanced Project Management Programme | 1 year
- Effective Directorship | 7 weeks
- Entrepreneurship | 7 weeks

The experience was amazing. I learned a lot in this course and how to apply it to my workplace.

- Carmen Damons
Leadership and Emotional Intelligence Student

Eduvos Admission Requirements.

Visit [eduvos.com](https://www.eduvos.com) for more information.

ADMISSION Requirements.

South African Senior Certificates achieved prior to 2008.

If you have not complied with the minimum statutory matriculation requirements for admission to a bachelor's degree, please contact one of our Higher Education Consultants for alternative paths of admission.

South African National Senior Certificates achieved after 2008.

Minimum admission requirements for undergraduate degrees:

- You must pass at least 6 out of 7 subjects with a minimum of:
 - 40% or Level 3 for your Home Language;
 - 50% or Level 4 for four other high credit subjects (excluding Life Orientation);
 - 30% or Level 2 for two other subjects
- For your Eduvos APS calculation, Life Orientation will be granted 3 points from any percentage above 40%
- Alternatively, the endorsement on your NSC may grant you admission into a Higher Certificate or Foundation Programme

National Certificate Vocational (Level 4) admission requirements:

- You must pass 7 subjects by achieving a minimum of:
 - 40% in English Language
 - 30% minimum in Maths/Maths Literacy
 - 40% in Life Orientation
 - 50% in each of 4 vocational subjects

For Admission into a Bachelor's Degree:

- You must have achieved a minimum of 60% in three Fundamental subjects (English, Mathematics or Math Literacy or Technical Mathematics, Life Orientation)
- You must have a minimum of 70% in the four Vocational subjects, chosen from the NC(V) registered subject list

The NCV (Level 4) subjects must relate to the degree for which you intend on enrolling for.

Calculation of Eduvos points

NSC%	90 - 100%	80 - 89%	70 - 79%	60 - 69%	50 - 59%	40 - 49%	30 - 39%	0 - 29%
Points	8	7	6	5	4	3	2	1

BA Honours in Graphic Design	<ul style="list-style-type: none"> HOP Discretionary Admission: Students with a final year average of 55 – 59% will be admitted if they attained 60% or higher for the designated cognate/core discipline final- year modules Non-graduates: Design practitioners without an academic qualification will be eligible to apply subject to appropriate evaluation procedures based on recognition of prior learning policies All applicants are required to complete an entrance challenge: namely a detailed letter of intent, an interview and a portfolio
BCom Honours in Business Management	<ul style="list-style-type: none"> A recognised undergraduate degree or equivalent for the specific honours degree or an equivalent foreign undergraduate qualification on NQF level 7 approved by SAQA The specific undergraduate qualification must include Business Management or equivalent in the third year of undergraduate studies The specific undergraduate qualification must include the following modules at least in the first year: Accounting, Economics and Statistics And a minimum of 60% average during the exit year of the applicable undergraduate qualification Alternatively, the Recognition of Prior Learning can be considered for Access
Postgraduate Bridging Programme in Accounting (PBPA)	<ul style="list-style-type: none"> A recognised undergraduate Bachelor of Commerce in Accounting Or equivalent NQF 7 qualification which includes financial accounting or financial reporting at 3rd year level. The undergraduate degree does NOT need to be SAICA accredited

ADDITIONAL

Admissions Information.

GED

A holder of the GED® Credential (High School Equivalency Credential) may gain admission in either Higher Certificate or Foundation Programme or Bachelor's degree;

Higher Certificate or Foundation Programme

- GED Diploma completed prior 2019 without obtaining the required SAT score
- GED Diploma started and completed after 2019

Bachelor's degree

- GED Diploma completed prior 2019 with the required SAT score
- GED Diploma completed prior 2019 with a letter of eligibility to study for degree purposes at appropriately accredited US university
- GED Diploma completed and applicant will be turning 23 years or above in their first year of registration

Cambridge Assessment International Education

A holder of a Cambridge qualification would qualify to either Higher Certificate, Foundation Programme or Bachelor's degree depending on:

- The recognised subjects completed
- The number of sittings
- The combination of subjects and their groupings
- The subjects passed at the required level (Ordinary, Advanced Subsidiary and Advanced Level)

Mature Age Exemption

Candidates who do not meet the Bachelor's requirements and who will be turning 23 years or above in their first year of registration may be considered.

Recognition of Prior Learning for Access (RPL)

Applying for RPL means that you do not have the relevant undergraduate qualification or a higher certificate for admission, but you do have considerable relevant experience to be admitted through the RPL access process. Please visit eduvos.com for guidance on how to apply for the RPL process.

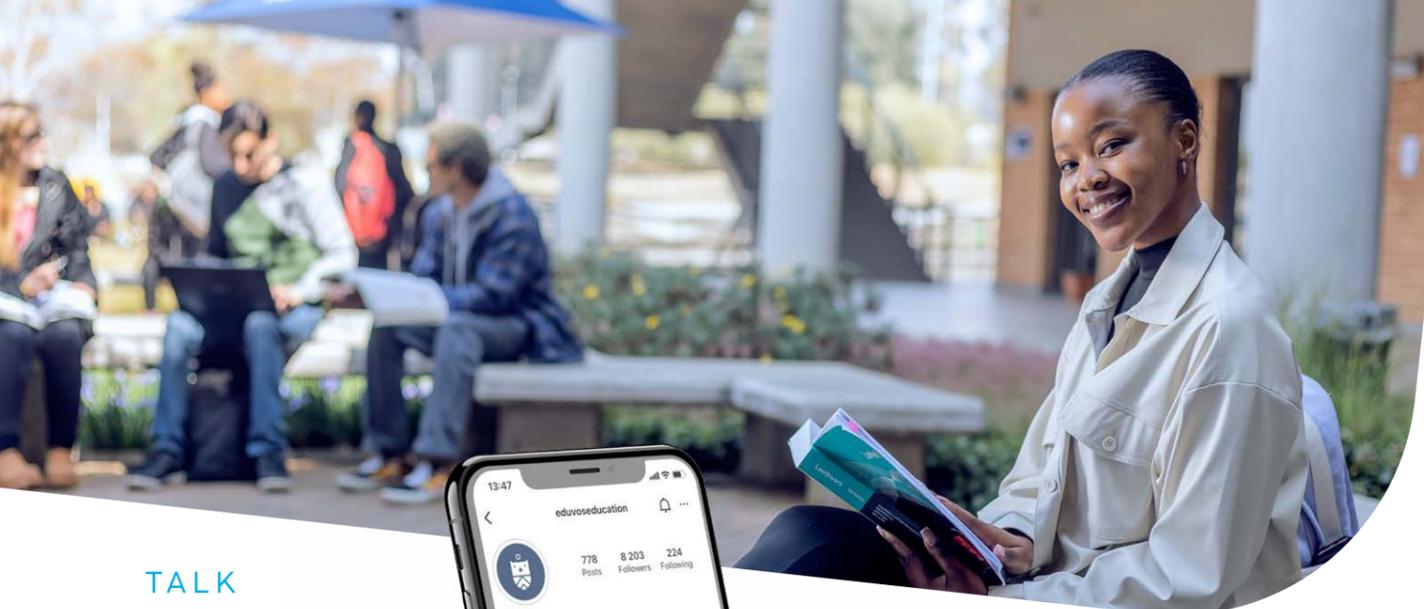

Credit Accumulation Transfer (CAT)

Eduvos welcomes students who wish to transfer from other institutions and complete their studies with us. Please visit eduvos.com for guidance on how to apply for the CAT process.

International Qualifications and Students

If you are not a permanent resident in South Africa and require guidance and support in meeting admission or immigration requirements, please email: international.office@eduvos.com

Visit eduvos.com for more information.
