## ☰ Qualification description

**Business-minded? The multidisciplinary nature of this degree prepares you for work in any area of business.**

You will cover the broad principles of commerce and management with a focus on business management, human resource management and marketing. You will also develop a sound foundation in accounting, financial management, project management, economics, research methodology and organisational behaviour. Because of our unique teaching and learning approaches, you will also develop essential skills for the world of work, such as analytical thinking, effective decision-making, working in teams and communicating confidently.

At Eduvos, we believe that flexible learning brings limitless possibilities. That's why we use a blend of face-to-face Lecture-Based Learning (LBL) and Technology Enhanced Learning (TEL). Our teaching staff is a mix of full-time academics and working professionals to ensure you benefit from quality academic and industry-specific inputs. You have access to campus resource centres, computer labs and WiFi. During your studies, you complete practical case studies and conduct individual and group research projects. These projects and assessments ensure relevant business experience and further prepare you for the real world of work.
